Two announcements are made in our advertising columns to-day, (says the Singapore Free Press of July 2) with reference to the Straits Fire Insurance Co. Ltd., that show the effect of the agitation recently got up for the purpose of winding up the Company A meeting of the shareholders is called for the 19th inst. to consider a resolution for voluntarily winding up the Company and for appointing liquidators. The decision to be that of acquiescence in the desires of the China shareholders, who have liquidation. Into all the arguments and allegations that have been made we do not propose to enter. While admitting that the Straits Fire Insurance Co., Ltd., could not hope to compete with the very much more wealthy corporations that carry on a world-wide business, we think it is still a matter for regret that our only local insurance company should have to be absorbed in one of the Home Companies, which is the course proposed to be adopted. The many changes in system, which have so adversely affected the Army generally, have spared the Marines. Yet, for some occult reason, the authorities have given them no better weapon than the Martini-Henry, while the boys are armed with the magazine rifle. It may be urged that our Army with the colours is only a skeleton force, to be promptly expanded when occasion arises by the Reserves. But, of course, England can send no army abroad whether to defend India against internal aggression, to vindicate the neutrality of Belgium, or take a small part in European war, without calling out the Reserves. They might or might not come, however; even if they did, they would be drafted off at once into the expeditionary force, and the country would have lost its first line of defence at home. The substance of the Government telegram is contained in the following communication forwarded to the Singapore Free Press by the Colonial Secretary :--

L'he Government is infreceipt of information to the effect that the attack on the rebel posts at Jeram Ampal on the Tembeling river took place at 11 a.m. on the morning of Friday, the 29th June. The right attack advanced under hot fire for a quarter of an hour, with the result that the three kubus on the left bank of the river were carried. THE CHINA REVIEW.

PUBLISHED BI-MONTHLY.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and Queries on China and Japan,' has reached its Twenty-first Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person con-nected with China or Japan is desirous of acquiring trustworthy information. it includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review new gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

useful. The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to 'Editor, China Review, care of China

Mail Office.' The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points. The Correspondents' column also affords larther and greater facilities for the interchange of views and discussion of various

topica. Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Messrs Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, Piton, and Taylor, -all well-known names, indicative of sound scholarship and thorough mastery of their subject. The Subscription is fixed at \$6.50 per

annum, postage included - payable in ad-Orders for binding volumes will be promptly attended to; Address, 'Manager, China Mail Offico.'

OPINIONS OF THE PRESS. 'All our learned societies should subscribe to this scholarly and enterprising Review.'-Northern Christian Advocate (U.S.) 'The China Review * * * * has an excellent table of contents.'-Celestial Empire. 'The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding

numbers.'-Celestial Empire. 'This number contains several articles of interest and value.'-North-China Herald. 'The China Review for September-October fully maintains the high standard of excellence which characterises that publication, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to 1880. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and 11 appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries | 12. are as usual very interesting. -North-China

A substantial and reliable Review which

Daily News.

all students of China and the Chinese would do well to patronise.'-Chrysanthemum. 'The Nevember-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chinese" treats of a question that must necesearly be of great importance in the eyes of all missionaries. Mr E. H Parker's "Short Journeys in Szechuen are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number, -H.K. Daily Press.

Trubner's Oriental Record contains the following notice of the China Review:-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to sav nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body. among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly meditable to their respective authors . . . Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that 'Notes' and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary seal to that which was displayed during the lifetime of its prede-cessor in the field, and that the China Review may receive the support necessary to insure te continuance.
